

Feedback applied:

Definition: If an incorrect password is entered while logging into any site, an **ERROR** feedback is sent so that the users come to know and enter the right password.

Constraint's applied:

Definition: Now-a-days as a safety feature various new bikes and scotties have a feature where-in the vehicle wont start until the side stand is off.

Constraint's & Feedback both applied:

Definition: In various sites, while logging in we see such a type of interface where we get to know about the constraints (ie. the Password has at least 8 chars) and also feedback is given (ie. At least 1 number) whenever the constraint is fulfilled.

Password

- ✓ At least 8 char.
- ✓ At least 1 uppercase
- ✗ At least 1 number

Feedback given but no constraint:

Definition: While logging into the sppu site after entering the password, we get to see a text saying “INVALID PASSWORD” before clicking the login button.

Constraint applied but no feedback:

Definition: The constraint applied is the battery can be charged to 100% but in the case of such chargers, no feedback is provided on whether the laptop is completely charged or not.
